For Hot Pads and Plush Animals – filled with grape seed

-

Our Dajo Hot Pads stay warm for a long time, longer than the old hot water bottle. Why? They are filled with fine grape seed. Every seed contains the valuable grape seed oil. The Hot Pads hold the temperature for a long time (hot or cold). The small grape seeds snug to your body real cozy. This also guarantees warmth for a long time.

You can use your Dajo Hot Pad to make you feel comfortable and to relax. Or to stimulate blood circulation, to find relief from stomach ache, tension, pain, stiff neck or rheumatism. Or use the Hot Pad to warm your baby's bed.

Of course the Hot Pad also keeps cool if necessary. Use the cold pad to cool body parts and relief pain when having head aches, migraines, itching of the eyes (due to allergies), strains and sprains, swelling or inflammations.

If your child has a fever, use the Dajo Pad to reduce the body temperature. Use your Pad at room temperature or a little cooler. That will draw heat from the patients body.

When you heat the Hot Pad for the first time, it will release some moisture, and you will smell the grape seed. However, this will be reduced after you have heated the Hot Pad two or three times.

How to use the Hot Pad in Plush Animals by Dajo:

The Plush Animal has a zipper, either on its belly or on its back. Open the zipper and remove and heat the Hot Pad.

The Hot Pad should not be heated when it is inside the Plush Animal. The Plush Animals should not be warmed in a stove or microwave.

You can wash the Plush Animal in your washing machine. Wash at 30 degrees Celsius (100 degrees Fahrenheit). Remove the Hot Pad before washing.

Plush Animals by Dajo come with pads in various seizes: 200 g, 300 g, 500 g or 600 g of grape seed. The table below shows the heating time in the microwave.

How to use the Hot Pad in pillow case:

The pillow case which go with the Hot Pad have a zipper. Therefore they should not be warmed in an oven or microwave.

The Hot Pads have to be warmed without the pillow case. Do not put pillow case in oven nor microwave.

The Hot Pads for pillow cases come with grape seed filling of 300 g, 600 g, or 1000 g. The table below shows the heating time in the microwave.

How to use Hot Pads with Dajo Slippers:

To warm the Hot Pads for slippers, remove insole. Under the insole you will find the two blue Hot Pads, 200 g each. The table below shows the heating time in the microwave.

The Hot Pads have to be warmed without the slippers. Do not put slippers nor insoles in oven nor microwave.

Of course you can use the slippers without the Hot Pads.

Every single Dajo Hot Pad is manufactured by hand in our workshop. We use only high quality materials. The grape seed is grown in German vineyards. The cotton we use has the high standard for biological textile Oeko Tex 100. It is produced by Westfalenstoffe, Muenster, Germany.

Heating your Hot Pad in microwave at 600 watt

weight in gram	Measure in cm	Used in	Heating time
2 pads, each 200	Oval 25	Slipper	1 min
200	11x17	Animal	0.5 min
300	17x17	Animal	1 min
500	16x25	Animal	1.5 min
600	25x25	Animal or Pillow	2 min
1000	25x38 / 22x56	Animal or Pillow	3 min

Take the Hot Pad out of the heater from time to time and shake it.

Heating your Hot Pad in the oven:

Put the Hot Pad on a clean sheet. Heat the cushion about 5 – 7 minutes at 110 degrees Celsius (230 degrees Fahrenheit). Shake the Hot Pad from time to time. Turn down heat and leave the Hot Pad in the oven for some minutes.

Heating your Hot Pad on radiator:

Place the Hot Pad on the radiator. It should not be too hot. You can leave the Hot Pad there for warming.

Cooling your Pad:

Put the Hot Pad into a plastic bag for protection, then place both into the freezer. After 10 minutes the seed is cool enough, and will still feel comfortable.
